## REMINDER

### **My Welcome Message for You Plus How You and I will Operate**

Hello Dear Friend,

I want to congratulate you for making up your mind to be a part of the N950-Per-Day System.

This system is designed to put a minimum of N950 into your bank account daily, if you will follow the instruction and do ALL that you are asked to do.

Before I tell you what resources are available to you, how to access them and how to deploy them, let me help you understand a few things:

In the N950-Per-Day system you are a promoter of products that work. What it means is that you have decided to become an affiliate of ServiceForts Publishing product and you are basically selling our downloadable products.

*Listen to me, Every body on Forbes list - Pastor, Bishop, Publisher, Engineer, CEO, Athletes or Singer, I don't care what name you give them - They Got there by SELLING something! And they are on that list because they know how to SELL BETTER than the rest of the world. Period.*

So, you want to make money from Internet and Information Marketing Business? **Your number one goal is to SELL SOLUTIONS better than everybody else. Period.** And that is what the N950-per-day system is about.

You are selling an eBook for N950 which has been carefully written by Efe Imiren and published by ServiceForts Ltd and you get 50% per sale. So when you sell 2 of that product per day, it puts N950 in your bank account.

According to statistics from Yahoo! eBooks are going to have a 4-times increase in sales during the next 2 years. In fact, Amazon just announced that finally this year eBook sales have sold more than printed books.

For you, this is the time to jump into this trend of internet and information marketing business because there are 8,000,000 printed books being sold on Amazon but only 850,000 eBooks being

sold on Amazon. Although, this is not about selling on Amazon, if you look at it clearly, you'll see that this is a measly 1/10 the competition with tons of niches wide open for your taking.

**This program is not for the lazy nor those who don't have time** and if you are the type that always complain of lack of time, well, you can kiss your investment good bye. Don't expect to do nothing and get money,

When I tell you to post, you post, when I tell you to build a list you do it, when I tell you to go to facebook for marketing, you do it. As long as you follow me like a leech, you get it.

Overall, I will train you over the next four weeks or more and make demands on your time to do a few simple things that will help you build the system that will put your N950 into your bank account every day.

**If you have any questions**, Send all affiliate questions ONLY to [affiliates@serviceforts.com](mailto:affiliates@serviceforts.com) . I will not answer any question not related to affiliates in this email. And I will only answer questions from those who PAID to get onto the program.

The rules are simple, follow, do or drop out. I don't have time for misbehaviour or complainers who drain the energy of the Coach. **Read. Understand. Do.** And you'll be happy you did. 😊

Who am I any way and why am I speaking to you with this much confidence? Find out in the next page.

## **Who is Efe Imiren and Why Are You Listening to Her?!**

My name is Efe Imiren (I'm a Lady by the way) and Everything about me is best described by the interview I had with a Media House Recently. Here are the extracts; Enjoy!

### **1. A little about yourself (Introduction)**

**Efe Imiren** is widely considered Nigeria's foremost, leading and most successful Female Information Marketing Expert, she is a Speaker, Author, Consultant and Successful Female Entrepreneur.

Efe started honing her entrepreneurship skills in 1999 and eventually turned her passion and ideas into a profitable business named ServiceForts Resources Ltd. The ServiceForts brand name has grown into four major operations including Technologies, Travels, Publishing and Business Academy.

### **2. About your Internet business and its nature (Introducing your business)**

Efe Imiren's internet and information marketing business ideas and passion are well organized under the **ServiceForts** brand name.

All the ServiceForts brands (i.e. Technologies, Travels, Publishing and Business Academy.) are heavily driven by the internet as a business tool.

### **1. How it all began, to how it got to the present level/status. (The Story – the start, the challenges and the break)**

I guess I pretty much covered how I started in the introduction section. The challenges have come, and still come every day but I've learnt this lesson and any intending entrepreneur should learn it too – **As An**

***Entrepreneur, You are called to a life of solving problems.*** So when they show up, welcome them and get to work!

The main challenge for any newbie is the process of “Putting together all the bits and pieces of information they get and turning it into a profitable internet business”

There are all sorts of junk information out there, and what I usually tell my students are: **Locate** someone who is successful at what you want to do, and stick to the person like a leech by enrolling on the person's list, read all the emails they send you, and **do everything** they ask you to do and invest in some (if not all) of the products they ask you to get.

In that way, you will quickly overcome the challenges that usually frustrate most newbies into getting out of the business.

Now, although most successful people in internet business are willing to help, not everyone has the time to do it, so before you choose the person to stick to, do a litmus test by sending an email to make a genuine enquiry, if you get a personal email from that person stick to the person like a leech. It's not a sure sign that you will always get a reply from that fellow, but you can rest easy that the fellow will read your mails and attend to you if not all the time, but at least sometimes.

The break? I have breaking news everyday! For example, I just tested a few recommendations on my website some days ago using a new autoresponder and the income from these tests were astronomical. The big financial break came for me when I discovered the power of classified adverts on my internet business. I have not looked back since then.

#### **4. Few tips on how a newbie can build a successful and profitable Internet business like yours.**

Well, to build a successful and profitable internet business like mine, you have to think like me. Period.

You see, internet business, *is a business that reflects the personality of the person behind it*. That is why, if you visit a website, you can tell if the owner of the website is someone who goes for excellent result or a mediocre.

My business is NOT built on the quick cash principle but many many people who want to do internet business think of quick cash. They want the money now now now.

Yes, you can get the money now now, but check history and see, how many of the ‘quick cash gurus’ are still in town doing internet business today? *They have fizzled out.*

So I repeat, If you want to build a successful and profitable internet business like mine, you have to think like me.

And here is a little insight into how I think when it comes to internet business. I aim at providing solutions and creating products that will always be needed in the market. I build a lasting business around any product, service or solution I create by investing in the necessary and right tools to build the business.

I don't ask questions to irritate or annoy my mentors and coaches, I study their products and ask intelligent questions after practicing what I have been taught. Then I keep a weekly routine sheet for what I do on all my websites every week to produce huge financial results.

I share this weekly routine of exactly what I do on my websites for consistent six figure income with my students at [www.IdeaForts.com](http://www.IdeaForts.com); you can join us there and get a 30days free email training to have an insight into how I think when it comes to internet business.

### Foreword

The excitement about the **N950-Per-Day-System™** has been incredible! And I'm very excited that you're excited! ☺ One Affiliate-Member's email to me kind of sums up what everyone has been writing in to say...

"Efe, Just want you to know that I think your training is fantastic!!! I'm learning a lot and you're delivering more than what you even advertised to make me earn money successfully." Thanks a lot.

Listen, it's only going to get **better and better** as we go along. I've got so much to share over the coming weeks of this program that I just can't wait to let out of the bag. But, we'll get there. I know you can't wait to get started with this week's lesson, but there is something I need to address and announce before we dive in.

As I mentioned in response to some of the FAQs I have been getting in my mails, I simply **cannot answer questions** related to the lessons. I'll be happy to support anyone having technical needs as always, but I just don't have the time to answer questions related to **applying** the content of the lessons.

Here's why –

Even if the question is "*Efe, do you think this is a good idea?*" and all I did was type in "yes or no" (which is NOT the length of response you'd be looking for) there simply isn't enough time to read and respond to 320 affiliate emails daily nor is it a good idea for me to delegate it out to some unqualified virtual assistant.

It's a Simple Math Thing: If it just took ONE MINUTE to read and respond to an email, it would take me almost **6 hours** to answer 320 affiliate emails. And that's nothing but "yes or no" answers. If I spent FIVE MINUTES on each and typed a short paragraph response, it would take over **27 HOURS** per week just to answer emails. I just can't do it.

**Now, just to be clear**, it's not an issue with the content. I'll always make the content straightforward and understandable and if anything needs clarifying, I'll be happy to do it for the entire group.

I'm talking about specific questions for specific people. I just can't answer them due to the volume of members.

After getting requests, I've decided to create a **950-Per-Day™ Inner Circle** personal coaching program for the first 5 members who join. The price is N15,000 for **One Hundred and Twenty Solid Minutes**. If you are

someone who would like some "hand holding" as we make our way through each week's lesson, then check out the details at [www.IdeaForts.com](http://www.IdeaForts.com)  
***This is a One-On-One Training where I will personally help you work through technical challenges and any cloggy part of your business. Plus you will be shown how to apply this business principles to other ideas that you might have such as real estates, publishing, ANYTHING you want to lay your hands to do.***

Again, I will always make the lessons themselves very clear and even "newbie-friendly" so there isn't going to be any kind of problem there. But, if you want **personal access**, I do have a limited number of coaching spots available. First come, first served. Five members only.

**NEWLY ADDED: YOUR "Members Only Resource Videos" Privileges**

Also, I do want to remind you that you have "members-only-videos-resources" available to you. If you have any questions that you feel affect many people (not just a personal question about YOUR business) then please request for a resource video on it. I certainly want to help you and as many members as I can with the time I do have, so I'll gladly create videos to distribute to all members. You can request one of these resources by submitting sending an email to [affiliates@serviceforts.com](mailto:affiliates@serviceforts.com) *So far, there have been two video tutorials created through this privilege!*

Again, I'm just like you and everyone else on this planet. I only have 24 hours each day -- and I just am unable to devote 27 hours per week answering short emails from 320 members. I'm sure you can understand this. It's not that I don't want to personally help, it's just that there isn't time to do so. That's why I gladly create the resources that will help everyone ... it doesn't require as much time, but can reach out to everyone.

-----  
**Note:** Always download and DO your lessons INSTANTLY.

**FAQ ANSWERED**

Here is a mail I got from a member about registering domains:

Hello Efe, Item number 2 page 12 under 4 Stages Of the affiliate/ Commission Business model you indicated that you have selected a domain name for us and on page page 21 option 1 under the week's assignment you ask us to register our domain name again. Please clarify.

**Here is my reply to that email:**

The domain name I selected for you is the one that will host your commission ID business. i.e. the sales copy and all the other stuff I have created for your business.

You are registering your domain name to for you to be able to do your marketing to build **your** list **first** before sending them over to **my** website where your commission ID business is hosted.

In a nutshell, you build your business asset First, before redirecting the traffic to you **affiliate** website. You will understand this well when lesson 2 and 3 arrives your mail box.

PS: If you don't want to register a domain, you can use the free blogspot as indicated in the video

Now lets' begin todays' lesson,

## **List Building**

### ***Your Key To Limitless Wealth***

My dear friend and partner, you see, if you have not been taking the lessons serious up to this point, **hear this** – *from this point onwards*, **pay attention to all lessons – this one in particular – Because – Your N950-Per-Day** is going to come from what you are about to **Learn and Implement** in this lesson.

I am sure you must have come across this phrase

The Money is in the List

Even if you are new and are hearing it for the first time, I want you to **Stop.Pause.Think.**

Again, I said

The Money is in the List

In fact personalize it

**My** Money is in the List

Apply it to your **N950 per day** and Shout it loud to yourself this time around

**My N950-Per-Day** is in MY List

***Got the Gist?***

Good.

Now, let me tell you why this is so.

Don't be ruffled by the word 'List'. List simply means the contact details of people who visited your blog (website or virtual office). At the barest minimum, a list has the following contact details of visitors – Name, Email, Phone Number and Location of the visitor.

So why is the money in the contact details of your visitor?

Simple.

With the email, name and phone number of your visitor, you can contact them ***in a personalized manner*** to tell them about what you are selling ***over a LONG period of time, such as 3 days, 1 month, 1 year, 3 years or even 10 years.***

You can keep going back to them ***repeatedly*** over the years to make one product offer after another to them once you have their contact details.

In yesteryears this used to be done manually by writing letters. But in this jet-age it is done online via ***Email and SMS***

And there is an automated way of gathering the contact details of the people who visit your website by using a simple tool called: **AUTORESPONDER**

**Introduction To Autoresponders and  
Why You Need One NOW**

An autoresponder is what I like to call your 'Virtual Personal Assistant'. It automatically collects the contact details of your visitors, sorts them into a retrievable format for your so that you can contact EACH customer in a PERSONALIZED manner WHENEVER you desire.

There are two types of autoresponders

[GSM](#) Autoresponder

[Email](#) Autoresponder

I use both of them and you should to.

There are

[Paid EMAIL](#) Autoresponder

[Free EMAIL](#) Autoresponder

[Paid GSM](#) Autoresponder - Offline

[Paid GSM](#) Autoresponder - Online

**WAIT!! NEWS FLASH – IT IS 10<sup>TH</sup> July 2011 about 7:19pm, I am recording your video and preparing this lesson, in fact I just finished lesson 2 video and book and am in this section on lesson 3 – I suddenly feel warm water under my feet!**

**Jesus! My carpet is wet, how come? I rush out of my room to the sitting room; Oh my God! My ENTIRE House is flooded! I have to stop this lesson and rush out to save properties and prevent any injuries or loss of any kind. Imirens where are you?!**

**It's 1:05am, we have moved every thing up stairs, the rain looks like It isn't going to stop, the entire down stairs is flooded, I'm upstairs, can't sleep, so here I am, continuing Your lesson.**

**Now, where were we?**

**Lesson continues....**

### **Member-Only-Resource-Videos:**

I have uploaded a video for members only on how to create and use the Free autoresponder, you can download it as a member of this training.

For the Paid Autoresponder and GSM Autoresponders you can get the videos from <http://businessforts.com/topics/internet-business-kits/>

### **Member-Only-BONUS:**

As a member of this training, for this training period ONLY, you can get specific videos from <http://businessforts.com/topics/internet-business-kits/> at 50% discount. E.g. GSM Autoresponder Videos and the Paid Email Autoresponder Videos.

***Let's be civilized please, once your training is over, the 50% discount ENDS. Don't call or email me to beg AFTER the training. Please, Make Hay while the sun shines. Thank you for understanding.***

### **Some Little Explanations....**

Your Email Autoresponder is used on websites to capture contact details from visitors

Now, the GSM Autoresponder is used to capture contact details automatically from your website visitors both **Online and OFFLINE** from those who send a text message to you automatically.

See why I use both?

See, if someone sends a text to your phone number, the GSM Autoresponder will automatically store their name, email and gsm on a computer system which you can now use for your marketing. *Got it? See why you should use the two?*

In this case however, the operator of the GSM Autoresponder will give you a dedicated phone number to use instead of your phone number.

The key advantage of the GSM Autoresponder is that people use their GSM phones **faster** than they use email. That's why you need to know how to use the two autoresponder systems – **to make you N950-Per-Day effective and fast.**

### **How To Set Up Your List Building / Autoresponder System**

**Option 1A** – [Email Autoresponder](#) (Paid)

**Option 1B** – [Email Autoresponder](#) (Free)

**Option 2A** – [GSM Autoresponder](#) (Paid)

**Option 2B** – GSM Autoresponder (Free) **Not yet existing** 😊

#### **SET UP INSTRUCTIONS**

**Option 1A** – [Email Autoresponder](#) (Paid)

**Step 1:** There are many options of paid autoresponders to choose from, but I'll only recommend what I use, so click [Here](#)

Register for a free account and then upgrade to a paid account by getting a Zenith Bank Web Surfer Internet Payment Card. It is \$120, this will pay for about 4 months of your autoreponder service. So you pay for four months, and have peace of mind to SELL your product and make tons of money before the next billing date.

You can watch the videos in the Help section of your dash board after you have registered for a free account. These videos will walk you through the basic instructions like a variety of steps where you fill in information to create your list. This information includes things like:

- The name of your mailing list.
- The company name.
- The email address you'd like associated with this list.
- What you'd like to appear in the email subscribers get to confirm their subscriptions.
- What you'd like your email subscription box to look like.
- The emails you'd like to initially send to subscribers.
- Your post office address.

**SIDEBAR:** To use any of the free or paid EMAIL autoresponder services, you need a post office address. I hear it's very cheap to get one and you can get it in 72 hours or less. Visit your local post office today. You need it for your business.

From here, I will focus on the Free autoresponder, it is the same steps you will follow if you are using the paid system as well. There is a detailed video for sale on the paid system, you can get it at 50% discount from

<http://businessforts.com/topics/internet-business-kits/>

So, let's focus on the Free Autoresponder for the rest of the lesson.

### **SET UP INSTRUCTIONS**

#### **Option 1B – [Email Autoresponder](#) (Free)**

**Step 1:** Download the **Member-Only-Resource-Videos** to see the set up instructions for this option.

**Step 2:** Set Up your list within your Email Autoresponder.

#### i. Set Up your verification message

The verification message is the email your prospect or website visitor will get from you when they complete your form on your website.

This message is to ask your visitors to **confirm** that they have actually requested for information from your website.

If you go to my website [www.IdeaForts.com](http://www.IdeaForts.com), for example, when you log in your name and email address, the next page you see will ask you to go to your email address to check for a mail from me.

The purpose of That **first** is to ensure that you are the owner of the email address and that the email address is a functional or working email address.

The verification email usually gets to your clients mailbox with a long blue url, until your client actually clicks that blue line they will not be added to your list.

So we have to set up the verification message to push your prospects to actually click on the blue url in the verification message. **Got it?**

Ok, go download and see the video on how to set it up. It's Video 3a

ii. Set up your first follow up message

Your follow up message are the messages that your clients will be receiving from you periodically about the product you are selling to them.

Your first follow up message is the very first email they will get from you immediately they click on the blue url in your verification message.

**GOODNEWS:-** I have written your first follow up message and it came along with this package for you. All you have to do is copy and paste! Are you glad about that? ☺

**Skip step 3, 4, 7, 8, 9, 10 if you are using a Free Blog from Blogger.com (If you are using your own hosting, this process is an ASSET for you, you'll discover why as we go on)**

The Rest of the Process Continues in Lesson 4

**Step 3:** Create a Confirmation Page (if you are using your hosting and domain, I already created the confirmation page for you.)

**Step 4:** Upload Your Confirmation Page

**Step 5:** Copy the Code of your Autoresponder

**Step 6:** Code your Blog with the *codes* you copied from your autoresponder

**Step 7:** Create an Opt-In Offer. (if you have your own domain and hosting, I have already created an opt-in offer, you will find it in the affiliate-members area, that is, if I have not yet emailed you the download link.)

You can thank me later ☺. If you are using your domain and hosting from [www.HostForts.com](http://www.HostForts.com), understand that you are building an asset. You'll find out why I said so as we move along.)

If you are using blogspot, simply move to step 5, then complete step 6 and 10.

**Step 8:** Code Your Optin-Offer Page.

**Step 9:** Upload your Optin-Offer page to the internet if you are using a domain and hosting that you paid for.

**Step 10:** Join the List to Test the process
